paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 132 Language: Chinese. I count the fun math question card (Grade 5) (six-three system the Qingdao version applicable) There are four major characteristics: (1) supporting the existing materials. The Code is issued according to the latest version of the textbooks. Each page as a normal teaching hours after the end of each unit interspersed finishing review. to better promote the pupils to understand and master the knowledge. (2) focus on the quality of teaching. Each page above the mouth of the computational problem can allow students to spend about five minutes to complete. Strengthen interest in expansion. Each page is set to one to two interesting mathematical problems interesting Applied Maths comes from life and to reflect the knowledge. fun. practical. so students have a strong interest in mathematics through thinking. Each interesting application problems are accompanied by a reference answer. (4) enhance the computing power. Pupils daily use fun math. I count the title card . in accordance with the requirements of daily training. record the actual time to complete. And accuracy. to identify their own inadequacies. Keep practicing. computing power and computational skills of the pupils will be able to be improved. Four Satisfaction guaranteed, or money back.
