

The Interaction of Compilation Technology and Computer Architecture

Filesize: 4.76 MB

Reviews

A whole new eBook with an all new standpoint. It is actually rally fascinating throgh reading through time period. You wont truly feel monotony at anytime of your own time (that's what catalogues are for relating to when you request me).

(Claire Bartell)

THE INTERACTION OF COMPILATION TECHNOLOGY AND COMPUTER ARCHITECTURE

Springer-Verlag New York Inc., United States, 2012. Paperback. Book Condition: New. 234 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****.In brief summary, the following results were presented in this work: * A linear time approach was developed to find register requirements for any specified CS schedule or filled MRT. * An algorithm was developed for finding register requirements for any kernel that has a dependence graph that is acyclic and has no data reuse on machines with depth independent instruction templates. * We presented an efficient method of estimating register requirements as a function of pipeline depth. * We developed a technique for efficiently finding bounds on register requirements as a function of pipeline depth. * Presented experimental data to verify these new techniques. * discussed some interesting design points for register file size on a number of different architectures.
