Pub Date :2005-01 Pages: 53 Publisher: Beijing Normal University Press Art is an important part of human civilization. With the advent of the information age, art is no longer limited to the traditional theaters, cinemas, concert halls, art galleries, but more extensive access to the mass media such as television, computer, network, and become a modern daily life and learning an integral section. The growing number of humanities scholars, scientists, and engineering and technical personnel try to draw inspiration from the art, the artistic way of thinking to penetrate to their work and study. Ability to feel, imagine, create art, has become indispensable in modern society requires the talent qualities. The art of the stage of basic education curriculum increasingly toward integrated, not only cross-fusion, theater, dance, film and television music and art into the art classroom. The new course will pay more attention to the sound development of the personality of the students take full advantage of the students' life experiences and social and cultural resources, and encourage students to experience, explore and reflective learning interesting for...
