We are constantly involved in changing situations - some to a greater extent than others. Here is where the author, Tom Eaglehouse, can help. Preparing for our senior years is a process in which we should be mindful of, and plan for throughout our lives. Most of us primarily wish to retain our independence. The factors of physical, mental and financial health are three of the most important variables we will deal with along the way. Ignoring any of these factors will affect our seniority in some way. While many people plan ahead, both planners and non-planners are often faced with financial, legal, and physical limitations that could not be envisaged earlier. Consequently, we can all use mentoring and guidance on some level to get us to a senior comfort zone. Tom Eaglehouse discusses many of the issues that need to be considered and the ways that are available to protect our financial resources. Tom has written a well-researched and practical book that is timely, thought-provoking and offers down-to-earth answers.
