

## Rudolf Diesel: Pioneer of the Age of Power

---

By W. Robert Nitske, Charles Morrow Wilson

University of Oklahoma Press, United States, 1985. Paperback. Book Condition: New. 230 x 150 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.On February 17, 1894, the Diesel engine was operated successfully for the first time. Since then it has been a prime mover for civilization, and today much of the world is dependent upon it as a source of power. Nowhere, perhaps, is it in more widespread use than in America, where the word Diesel is a part of our language. Rudolf Diesel: Pioneer of the Age of Power is the first English-language publication of Rudolph Diesel's biography. Authors W. Robert. Nitske and Charles Morrow Wilson offer a warm and moving account of Diesel from the time of his birth in Paris 1858 to his mysterious death in 1913. They present Diesel as he was-a man who lived, worked, and invented so far ahead of his time that the world is only now beginning to catch up to him. Diesel was ten years younger than Edison and Westinghouse and five years senior to Ford yet his technological achievements must rank with theirs in relation to the production and utilization of power. Unlike the Americans, however,...
